PROFESSIONAL SUMMARY

Motivated Software Engineering graduate with hands-on experience developing web and mobile applications using React.js, JavaScript, Node.js, Express.js, ASP.NET Core Web API, and SQL databases. Strong understanding of programming fundamentals, Git version control, RESTful APIs, database management, debugging, and object-oriented programming. Experienced in developing application features, integrating APIs, implementing authentication, and managing application data. Eager to contribute to software development projects, learn from experienced developers, and strengthen engineering practices through collaboration and continuous learning.

TECHNICAL SKILLS

- **Programming:** JavaScript, C#, Java, Python, PHP, C/C++
- **Web Development:** React.js, HTML, CSS, Bootstrap
- **Backend Development:** ASP.NET Core Web API, Node.js
- **Database:** SQL Server, MySQL, MongoDB,PostgreSQL
- **Version Control:** Git, GitHub
- **API Development & Testing:** RESTful APIs, Swagger
- **Authentication:** JWT, bcrypt
- **Testing & Debugging:** Manual testing, API testing, debugging, defect identification
- **Development Tools:** Visual Studio Code, Visual Studio, Android Studio, Docker,Github WorkFlows
- **Core Concepts:** OOP, Data Structures and Algorithms, Software Design Principles, Database Management

PROJECT EXPERIENCE

Cake Management System

Technologies: ASP.NET Core Web API, React.js, C#, Entity Framework Core, SQL Server, JWT

- Developed a full-stack web application with customer and administrator functionalities.
- Implemented RESTful APIs using ASP.NET Core Web API.
- Developed frontend components using React.js and JavaScript.

- Integrated SQL Server using Entity Framework Core.
- Implemented JWT authentication and role-based authorization.
- Developed features for cake management, customer management, shopping carts, and order processing.
- Used Swagger to document and test API endpoints.
- Used Git and GitHub for source code management.

E-Commerce Web Application

Technologies: React.js, Node.js, Express.js, MySQL, JWT

- Developed a full-stack e-commerce application with customer and admin functionality.
- Created responsive user interfaces using React.js.
- Developed RESTful APIs for user authentication, products, categories, carts, and orders.
- Implemented JWT authentication and password hashing using bcrypt.
- Integrated MySQL for application data management.
- Implemented product image uploads using Multer.
- Used Git and GitHub for version control.

Hairstyle Recommendation Application

Technologies: Flutter, Dart, Python, Machine Learning, VGG16

- Developed a mobile application for recommending hairstyles based on detected face shapes.
- Implemented face-shape classification using a VGG16-based machine learning model.
- Integrated hairstyle and sunglasses recommendations.
- Designed the mobile application interface using Flutter.

Salon Booking System

Technologies: Laravel, MongoDB

- Developed a web application for salon appointment management.
- Implemented authentication and appointment management.
- Developed invoice generation functionality.

EDUCATION

Bachelor of Software Engineering
Gandaki College of Engineering and Science, Lamachaur, Pokhara

Relevant Coursework:

- Data Structures and Algorithms

- Database Systems
- Web Development
- Mobile Application Development
- Software Project Management
- Artificial Intelligence and Machine Learning

ADDITIONAL SKILLS

- Problem-solving and analytical thinking
- Teamwork and collaboration
- Communication and documentation
- Time management and adaptability
- Willingness to learn and accept technical feedback
